

## Market Order

Mr. Chan wants to sell 100 shares of stock ABCD. On the trading page, He places the sell market order by clicking the sell button and entering 100 shares in the quantity field. Since this is a market order, he leaves the price blank, and selects market order. After he confirms his order, it is routed and filled at the best price available. Mr. Chan now has sold 100 shares of stock ABCD.

Note: It is not possible to cancel a market order once it's been placed during trading hours.
